Safety locks

01 DeadLock Kit-Front Door
DeadLocks have been used with great success in the industry for many years and still tend to be the preferred option for many users. Our Thatcham Quality Assured DeadLocks improve security by adding an additional locking point to the door, and therefore works independently to the vehicles existing locking mechanism. Requiring user interaction, it gives flexibility by allowing the user to decide when the door is locked or unlocked.
77 11 434 017

77 11 434 018

DeadLock Kit-Passenger Sideload Door
77 11 434 062

02 SlamLock 2 Door Set - Side Loading, Rear Barn
Human error is the largest cause for vehicles being left unlocked, our Thatcham Quality Assured SlamLock addresses the problem by design. Our SlamLock automatically locks when the vehicle door is closed, which cannot be opened unless the correct high security key is used, ensuring the door is always locked and dramatically reduces the chance of theft.
77 11 434 049

03 ProtektaPlate 4 Door Set-Driver, Passenger, Side Loading, Rear Barn
As OEM security increases and develops, so do the methods a thief adopts to bypass these systems. Criminals now study the OEM system to perfect their entry techniques. Our ProtektaPlate is designed to answer these vehicle specific threats, with each one being uniquely designed to address vehicle and door specific vulnerability.
77 11 434 052

04 ProtektaPlate 2 Door Set-Side Loading, Rear Barn
77 11 434 053

05 ArmourShell 2 Door Mini Set- Side Loading, Rear Barn - Black
Our Thatcham Quality Assured ArmourShell is the product of choice for those who require the ultimate answer to their security needs. No expense was spared when producing this pedigree locking system. The high security low-maintenance semi-automatic locking system houses the hardened steel locking bolt. With a simple push-to-lock mechanism, allows for quick and easy vehicle lockup, with the user having to use the high security keys provided in order to unlock this product.
77 11 434 057
The Renault Trafic: Efficient, clever and versatile

The Trafic Van has been specifically designed to meet the needs of professionals, whatever their business environment. With panel van, crew van and passenger versions, the Trafic is designed with you in mind, offering a wide range of specialist and practical solutions, plus the ability to create other variations using the Platform Cab version as a base. With its stylish design, efficient engines, the latest on-board technology and high levels of comfort and safety, the Trafic ticks all of the boxes.
Trafic - Protection

Body

01 Sport+ Pack

Sport+ striping and decals, LEDs, Front spoiler plus fog light surrounds, High level rear spoiler. With dynamic and robust lines, the Renault Trafic has a distinctive design with features such as the new Brand Identity front grille with prominent Renault Diamond, slender, expressive headlights and protective wraparound front bumper, giving the front end a strong, determined look that makes it stylish as well as practical. To complement these features, the Sport+ pack accessory is available featuring:

- Front and rear spoilers with design cues from our Renault Sport range
- Front fog light surrounds
- LED Daytime Running Lights
- Decal striping designed to fit the contours of the Trafic van

These all come together to create a stylish van which stands out from the crowd on the road.

77 11 434 025

DeadLock Kit-Passenger Side Sidelloading Door

77 11 434 067

02 OBD Port Protector-Kit

Our Thatcham Quality Assured OBD Port Protector encompasses the On Board Diagnostics (OBD) socket in a solid steel box secured with a high security, anti-drill and anti-pick lock, physically prevents access to the OBD socket without the correct high security key.

77 11 434 042

03 SlamLock 2 Door Set - Side Loading, Rear Barn

Human error is the largest cause for vehicles being left unlocked, our Thatcham Quality Assured SlamLock addresses the problem by design. Our SlamLock automatically locks when the vehicle door is closed, which cannot be opened unless the correct high security key is used, ensuring the door is always locked and dramatically reduces the chance of theft.

77 11 434 051

04 ArmourShell 2 Door Mini Set- Side Loading, Rear Barn - Black

Our Thatcham Quality Assured ArmourShell is the product of choice for those who require the ultimate answer to their security needs. No expense was spared when producing this pedigree locking system. The high security low-maintenance semi-automatic locking system houses the hardened steel locking bolt. With a simple push-to-lock mechanism, allows for quick and easy vehicle lockup, with the user having to use the high security keys provided in order to unlock this product.

77 11 434 058

05 SlamHandle 2 Door Set - Side Loading Rear Barn

There is a growing problem with van handles being removed easily due to the way they are fixed; through un-secure fixings. Whilst other products offer limited protection, the SlamHandle is the only product which provides full protection against this break-in method. The SlamHandle utilises a built in SlamLock, that when the vehicle door is closed, it locks automatically, keeping the vehicle secure at all times.

77 11 434 059 Stainless Steel
77 11 434 060 Black

06 PedalBox-Standard Kit (Manual)

The Thatcham Quality Assured PedalBox was designed and developed to prevent vehicle theft. Advanced thieves are replacing some vehicles easily accessible ECU with their own (with a matched key), allowing them to open and drive away with the vehicle. The PedalBox is constructed from High grade steel and is then finished with highly visible yellow coating, allowing this product to be seen in low light. This product simply hooks under the driving pedals and then locks over the top, preventing physical access to the pedals; stopping this type of theft.

77 11 599 849
03 Renault Master: a solution for you

The Master Van has been specifically designed to adapt to the most demanding requirements. It is efficient with space, boasting load volumes of up to 17m³ and payloads of up to 1,593kg (3.5T versions) and 2,167kg (4.5T versions). It is practical, with a range of factory conversions to fit your needs, including Tippers and Luton vans. It is versatile, Platform and Chassis Cab versions can be converted into a vast array of other products, from wheelchair access minibuses and refrigerated vans, to ambulances. It also makes your working day easier and safer, with electronic stability controls (ESC) now standard on every version of the Master featuring Hill Start Assist, Grip Xtend and Trailer Swing Assist.

The Renault Conversions: efficient, practical and versatile

The Renault Master is a hugely versatile vehicle. It is available with a range of body styles, physical sizes and engine variants that can be adapted to a wide range of uses. We offer a comprehensive range of products and services to facilitate the adaptation of our vehicles to individual requirements.

Our comprehensive range of ‘Off the Shelf’ factory converted products are available directly from our dealer network as a ‘One Stop Shop’. These vehicles are provided with a full manufacturer warranty (4 years, 100,000 miles) from Renault that applies to both the base vehicle and the conversion, giving the peace of mind you would expect when buying directly from Renault.

To complement our ‘Off the Shelf’ Conversions, Renault has developed a range of Tailor Made Accredited Conversions providing popular specialist vehicle adaptations such as refrigerated vans, Minibuses and grounds maintenance vehicles. Our accredited range has been developed in partnership with converters who have received Renault approval after being assessed on their technical and quality standards by a dedicated team from Renault.

Our Accredited Converters can also produce completely bespoke vehicles built to meet a customer’s specific requirement either as a one off build or as a multiple order. Our Accredited Converters receive specialist support and backup, ensuring that the quality of the conversion meets the standards expected by Renault and that the conversion meets all legal and technical requirements. Regular assessments and quality training are provided to the converters to ensure that these high standards are maintained both in the build of the vehicle and the aftersales backup provided. Renault takes responsibility for the base vehicle, and the converter is responsible for all aspects of the conversion, and in most cases the conversion will match the base vehicle warranty.

*Some exceptions apply (please check with your supplying dealer for the converter warranty statement)
The Master Dropside is designed to allow you to load and unload large items easily thanks to its 400mm high aluminium folding side panels. It benefits from a load length up to 4,430mm with a load height of 400mm and payload* up to 1,419kg.

- 3 load lengths: Medium (ML), Long (LL) and extra long (LLL) wheelbases
- 4 engines: dCi 110, ENERGY dCi 110, dCi 130, ENERGY dCi 145.
- FWD or RWD, also available as a twin-wheel RWD for even more traction (ideal for towing)
- Also available as crew cab (double cab)
- Payload* up to 1,419kg

Features:
- Foldaway step on rear side panel (1)
- Anchorage points in loading area (6 to 8 depending on version)
- Hot-galvanised steel front side panel and platform
- Anti-slip wooden floor
- Folding and removable aluminium side and rear panels (400mm high)
- Aluminium cab protecting grid with ladder/long object rack

*Payload equals the Maximum Operating Mass (Gross Vehicle Mass or GVM) less the Kerb Mass. Kerb Mass is the weight of the complete vehicle including coolant, oil, a 90% full fuel tank, spare wheel and jack, but excluding driver and crew. All Kerb Masses, and therefore Payloads quoted are subject to manufacturing tolerances and are based on the base level model. Any additional equipment added (options or accessories), or the selection of a higher trim level, can result in a higher Kerb Mass and a reduced Payload.
The Renault Tipper benefits from a high strength light weight steel body, resulting in a highly durable vehicle, with a much improved payload* up to 1,326kg for the FWD and 1,182kg for the RWD versions. The Renault Tipper also has excellent towing capacity with the twin wheel RWD versions being able to tow up to 3,000kg while keeping the interior comfort of a Renault Master.

- 2 load lengths: Medium (ML) and Long (LL) wheelbases
- Engines available: dCi 110, ENERGY dCi 110, dCi 130 & ENERGY dCi 145
- FWD or RWD, also available as a twin-wheel RWD for even more traction (ideal for towing)
- Also available as crew cab (double cab)
- Payload* up to 1,326kg

*Payload equals the Maximum Operating Mass (Gross Vehicle Mass or GVM) less the Kerb Mass. Kerb Mass is the weight of the complete vehicle including coolant, oil, a 90% full fuel tank, spare wheel and jack, but excluding driver and crew. All Kerb Masses, and therefore Payloads quoted are subject to manufacturing tolerances and are based on the base-level model. Any additional equipment added (options or accessories), or the selection of a higher trim level, can result in a higher Kerb Mass and a reduced Payload.

Features:
- Rear tipping ‘Scattolini’ body (45°)
- Hot-galvanised steel loading deck (2mm thick)
- Aluminium side and rear panels (400mm high)
- Aluminium cab protecting grid with ladder/long object rack
Box Van

With a load volume of up to 22m³ and payload up to 1,175kg, the Renault Master Box Van allows the efficient enclosed transport of merchandise or objects in an optimised loading area thanks to a perfectly flat rectangular floor without wheel arches and large side walls. This vehicle is ideally suited to delivery and removal companies as well as for use as short term rental vehicles.

- Long (LL) and extra long (LLL) wheelbases
- Engines available: dCi 130 & ENERGY dCi 145
- FWD or RWD, also available as a twin-wheel RWD for even more traction (ideal for towing)
- Payload up to 1,175kg

Features:
- Polyester walls with aluminium reinforcement (4mm thick)
- 15mm thick floor
- Clear glass fibre roof
- Interior fitting with 3 protective pads / 2 lashing rails
- Rear doors – roller shutter
- Luton head option available

*Payload equals the Maximum Operating Mass (Gross Vehicle Mass or GVW) less the Kerb Mass. Kerb Mass is the weight of the complete vehicle including coolant, oil, a 90% full fuel tank, spare wheel and jack, but excluding driver and crew. All Kerb Masses, and therefore Payloads quoted are subject to manufacturing tolerances and are based on the base level model. Any additional equipment added (options or accessories), or the selection of a higher trim level, can result in a higher Kerb Mass and a reduced Payload.
Luton Loloader

Based on a Master FWD Platform Cab, the Luton Loloader has a loading height of just 550mm to facilitate easy loading and unloading, a payload of 1,351kg and 18.5m³ load volume, which make it particularly suited to removals, home delivery, as well as multiple delivery and collections.

In addition, the LoLoader's adaptability means it can be easily converted for specialist uses such as catering vehicles or mobile shop or showroom.

- Long (LL) wheelbase
- 3 engines: dCi 130, ENERGY dCi 145 and ENERGY dCi 170 in manual or automatic transmission
- Payload: 1,351kg
- 18.5m³ of load volume

*Payload equals the Maximum Operating Mass (Gross Vehicle Mass or GVM) less the Kerb Mass. Kerb Mass is the weight of the complete vehicle including coolant, oil, a 90% full fuel tank, spare wheel and jack, but excluding driver and crew. All Kerb Masses, and therefore Payloads quoted are subject to manufacturing tolerances and are based on the base level model. Any additional equipment added (options or accessories), or the selection of a higher trim level, can result in a higher Kerb Mass and a reduced Payload.
Extend the Renault LCV experience at renault.accessories.uk

Although every effort has been made to ensure that the information contained within this brochure is as accurate and up to date as possible, Renault U.K. reserves the right to modify its models without notice, including their characteristics, specifications, equipment and accessories. Brochures inevitably become out of date or inaccurate in some respects, in that such characteristics, specifications equipment, or accessories may be changed after the publication date given below and can differ from the descriptions given or the photos displayed. It is therefore necessary to check with your Renault Dealer before purchasing any product that the characteristics, specifications, equipment or accessories of the vehicle on order are as advertised.
