# A little more about our new EasyLife range

Introducing our new, simplified range. Refined, revitalised and even more stylish, you can now choose from up to three trim levels depending on model - Play, Iconic and GT Line. Our simplified line up makes choosing your new car even easier.

Featuring enhanced external looks and even more essential equipment, you'll find the perfect options and accessories to make your new Renault truly yours.

The new range is ready to order now.

# New and definitely improved

Life never stands still. And nor do we. That's why we're making a few important improvements to make our range even better.

Firstly, Renault fully supports the introduction of the new emissions testing procedure, called 'Worldwide Harmonised Light Vehicle Test Procedure' (WLTP). WLTP represents a positive change to provide consumers with fuel economy and emissions data which is more representative of the results you may achieve in real life.

We're also streamlining our range, making sure all our models are even more stylish and packed with essential features. Simply choose from three trim levels: Play\*, Iconic or GT Line\*\* to find your perfect pick.

Our new Easylife range is now available across the entire Renault car range\*\*\*, making your decision of which stylish model even easier to make. But if you've got your heart set on one of our existing models, don't worry: they're still available to buy too.

The end result is that a new Renault is even harder to resist. But don't take our word for it, try one today.
